ELSEVIER

European Journal of Operational Research 120 (2000) 671–673

EUROPEAN JOURNAL OF OPERATIONAL RESEARCH

www.elsevier.com/locate/orms

Contents Volume 120

1 Operational research in practice: Consultancy in industry revisited
L. Fortuin and M. Zijlstra

14 A methodology for fitting and validating metamodels in simulation
J.P.C. Kleijnen and R.G. Sargent

30 A bilevel programming approach to determining tax credits for biofuel production
J.F. Bard, J. Plummer and J.C. Sourie

47 A stochastic 0–1 program based approach for the air traffic flow management problem
A. Alonso, L.F. Escudero and M.T. Ortuño

63 Procedures for providing robust gate assignments for arriving aircrafts
A. Bolat

81 Airline crew scheduling using Potts mean field techniques
M. Lagerholm, C. Peterson and B. Söderberg

97 Analysis of a dual sourcing inventory model with normal unit demand and Erlang mixture lead times
D.K.H. Fong, V.M. Gempesaw and J.K. Ord

108 Fast high precision decision rules for valuing manufacturing flexibility
M. Feurstein and M. Natter

118 Lead times, order release mechanisms, and customer service
E. Yücesan and X. de Groote

131 Effect of maintenance on the economic design of $\bar{x}$-control chart
M. Ben-Daya and M.A. Rahim

144 Choice functions and mechanisms for linguistic preference relations
F. Herrera and E. Herrera-Viedma

162 Assessing the quality of negotiated proposals using the REMBRANDT system
R.C. Van den Honert and F.A. Lootsma

174 A vertex algorithm for collision detection
M.D.S. Aliyu

181 Optimum target values for two machines in series with 100% inspection
K.S. Al-Sultan and M.F.S. Pulak

190 Review of guidelines for the use of combined forecasts
L.M. de Menezes, D.W. Bunn and J.W. Taylor

205 An analytically tractable interest rate model with humped volatility
F. Mercurio and J.M. Moraleda

215 A note on the location of an obnoxious facility on a network
O. Berman and Z. Drezner

218 On evaluating the performance of GSS: Furthering the debate, by Paul Finlay [European Journal of Operational Research 107, 193–201]
C. Eden

223 Fifteenth EURO Summer Institute – Production Scheduling: Deterministic, Stochastic and Fuzzy Approaches
R. Tadei
228 Scheduling with batching: A review
C.N. Potts and M.Y. Kovalyov
250 Scheduling the production of two-component jobs on a single machine
A.E. Gerodimos, C.A. Glass and C.N. Potts
260 The Kanban assignment problem – A non-integral approach
Y.T. Herer and L. Shalom
277 Scheduling jobs with release dates and tails on two unrelated parallel machines to minimize the makespan
G. Lancia
289 Two linear approximation algorithms for the subset-sum problem
H. Kellerer, R. Mansini and M.G. Speranza
297 A tabu search method guided by shifting bottleneck for the job shop scheduling problem
F. Pezzella and E. Merelli
311 Simultaneous lotsizing and scheduling by combining local search with dual reoptimization
H. Meyr
327 A combined cutting-stock and lot-sizing problem
S.L. Nonås and A. Thorstenson
343 Complexity of mixed shop scheduling problems: A survey
N.V. Shakhlevich, Y.N. Sotskov and F. Werner
352 The CLWS heuristic for single machine scheduling problem
K. Šorić
359 Using metaheuristics in multiobjective resource constrained project scheduling
A. Viana and J. Pinho de Sousa
375 Minimizing tardy jobs in a flowshop with common due date
F. Della Croce, J.N.D. Gupta and R. Tadei
382 On-line scheduling in a surface treatment system
F. Chauvet, E. Levner, L.K. Meyzin and J.-M. Proth
393 Fuzzy programming for multiobjective job shop scheduling with fuzzy processing time and fuzzy duedate through genetic algorithms
M. Sakawa and R. Kubota
408 Algorithms for mixed-model sequencing with due date restrictions
R.H. Lovgren and M.J. Racer
423 A mathematical programming model for scheduling steelmaking-continuous casting production
L. Tang, J. Liu, A. Rong and Z. Yang
436 Performance of hybrid cellular manufacturing systems: A computer simulation investigation
G. Shambu and N.C. Suresh

459 Formal methods in pattern recognition: A review
L. Nieddu and G. Patrizi
496 A study of high-level managerial decision processes, with implications for MCDM research
E. Kasanen, H. Wallenius, J. Wallenius and S. Zionts
511 Optimal multiple stage expansion of competence set
J.-M. Li, C.-I. Chiang and P.-L. Yu
525 The Greek banking system: Reanalysis of performance
A. Raveh

535 Sequential buying policies
P.-S. You
545 Tool capacity planning for semiconductor fabrication facilities under demand uncertainty
J.M. Swaminathan
559 Minimizing makespan on a single burn-in oven in semiconductor manufacturing
C.S. Sung and Y.I. Choung
575 Optimal production run length for products sold with warranty
R.H. Yeh, W.-T. Ho and S.-T. Tseng
583 Generalized spanning trees
M. Dror, M. Haouari and J. Chaouachi
593 An evolutionary approach for finding optimal trees in undirected networks
D.K. Smith and G.A. Walters
603 Finding the critical path in an activity network with time-switch constraints
H.-H. Yang and Y.-L. Chen
614 The capacitated multiple allocation hub location problem: Formulations and algorithms
J. Ebery, M. Krishnamoorthy, A. Ernst and N. Boland
632 On the law of the iterated logarithm in open queueing networks
L.L. Sakalauskas and S. Minkevičius
641 Quasi-birth-and-death Markov processes with a tree structure
and the *MMAP[K]/PH[K]/N/LCFS* non-preemptive queue
Q.-M. He
657 A comparison of procedures for estimating the parent probability distribution
from a given set of fractiles
H.-S. Lau, A.H.-L. Lau and J.F. Kottas
671 Contents Volume 120
